

GENERAL CARE

Ear Cleansing Solution

A gentle, drying ear cleanser that dissolves wax and helps prevent the recurring otitis that floppy-eared and allergic dogs are prone to.

Overview

Routine ear cleaning is the most effective way to prevent otitis externa in predisposed patients — but only if owners actually use the product. Our solution is alcohol-free and non-stinging, so pets accept it, and it combines ceruminolytic agents with drying and pH-lowering actives to leave the canal clean and inhospitable to yeast and bacteria.

The soft, angled applicator tip fills the canal without contacting the tympanum, and a generous volume covers weekly maintenance for months.

Key features

- Dissolves wax and debris (ceruminolytic)
- Drying agents and pH balance discourage yeast and bacteria
- Alcohol-free, non-stinging, fragrance-light
- Soft angled applicator for safe, mess-free filling
- Safe for routine weekly use and pre-medication cleaning
- For dogs and cats

Specifications

Volume	240 mL
Key ingredients	Lactic acid, salicylic acid, propylene glycol, aloe vera
Suitable for	Dogs and cats over 12 weeks; not for ruptured tympanum
Shelf life	36 months
Packaging	Retail bottle; 12 per case

Applications

- Weekly maintenance in floppy-eared breeds
- Post-swimming and post-bath drying
- Pre-treatment cleaning before otic medication
- Allergy patients with recurrent otitis
