

VETERINARY SURGICAL PACKS

Equine Surgical & Field Packs

Large-format sterile packs for castration, laceration repair and field surgery — built for the realities of ambulatory equine practice.

Overview

Equine work happens in barns, paddocks and trailers as often as in a surgical suite. Our equine packs bring the operating room to the horse: oversized drapes, heavy-pattern instruments, laparotomy pads and large-gauge sutures, wrapped so the outer layer becomes a clean field on any surface.

Standard configurations cover routine castration and laceration repair; custom trays are available for clinics performing standing procedures and orthopedic work.

Key features

- Castration, laceration repair and general field configurations
- Oversized SMS drapes, 150 × 200 cm, with adhesive edges
- Heavy-pattern instruments: Ochsner and Carmalt forceps, Mayo scissors, emasculator on request
- Laparotomy pads and 4×4" gauze
- Size 0 to 2 absorbable and non-absorbable sutures
- Sterile wrap doubles as a field drape

Specifications

Standard packs	Equine castration · Laceration repair · General field surgery
Drape	SMS 55 gsm, 150 × 200 cm
Instruments	Heavy-pattern single-use stainless steel
Sterilization	Ethylene oxide, sterile 3 years
Packaging	Individual sterile wrap, 5 packs per case

Applications

- Standing and recumbent castration
- Laceration and wound repair in the field
- Abscess drainage and debridement
- Mobile and ambulatory equine practice
