

VETERINARY SURGICAL PACKS

Feline Surgical Packs

Compact, cat-sized surgical packs with fine instruments and small drapes — well-suited for spay, neuter and minor soft-tissue procedures.

Overview

Feline surgery calls for finer instruments, smaller drapes and less bulk on the table. Our feline packs are scaled accordingly: delicate hemostats and needle holders, a compact fenestrated drape, small gauze and 3-0/4-0 suture options, all sterilized together as one unit.

The pack is a favourite of high-volume sterilization and TNR programs, where consistency and speed between patients make the difference.

Key features

- Fine mosquito hemostats, Metzenbaum scissors, Olsen-Hegar needle holder, spay hook
- Compact SMS drape with 8 cm fenestration and adhesive
- 2×2" X-ray detectable gauze sponges
- 3-0 and 4-0 suture options included or add-on
- Scalpel blade, towel clamps and gown available in-pack
- Sterile, single-use, sequenced for the procedure

Specifications

Standard packs	Feline spay · Feline neuter · Feline minor surgery
Drape	SMS 45 gsm, 75 × 90 cm, 8 cm fenestration
Instruments	Single-use stainless steel, fine pattern
