

WOUND CARE

Gauze Sponges & Rolls

Absorbent, low-lint gauze in sponges, pads and conforming rolls
— the everyday foundation of wound care and surgery.

Overview

From prepping a surgical site to packing a wound or padding a bandage, gauze does the quiet work in every treatment room. We supply woven cotton gauze with folded edges to minimize linting, and non-woven rayon/polyester sponges that absorb more while releasing fewer fibres into the wound bed.

Sterile sponges arrive in peel-open packs of 2, 5 or 10 for the surgical table; bulk non-sterile options keep the treatment area stocked economically.

Key features

- Woven cotton sponges, 8-ply and 12-ply, folded edges
- Non-woven 4-ply sponges — higher absorbency, low lint
- Conforming stretch gauze rolls, 2" to 6" widths
- Sizes 2×2", 3×3", 4×4" and 4×8"
- Sterile peel packs or bulk non-sterile bags
- X-ray detectable sponges available for surgery

Specifications

Sponges	2×2", 3×3", 4×4", 4×8" · 8/12-ply woven · 4-ply non-woven
Rolls	2", 3", 4", 6" × 4.1 yd stretched
Material	100 % cotton · 70/30 rayon-polyester non-woven
Sterility	Sterile (EO) peel packs · non-sterile bulk
Packaging	Sterile: 2/5/10 per pack, 50 packs per box · Bulk: 200 per bag

Applications

- Surgical site preparation and hemostasis
- Wound cleansing and dressing
- Bandage padding and securing
- Dental and oral procedures
